DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 21 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure lacks written description in the description of how to "escalate the message if the message is not responded to after a predetermined period of time". Applicant's disclosure is unclear of how to facilitate the escalation procedures into the workflow system."

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 2143

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-22 are rejected under 35 U.S.C. 102(e) as being unpatentable over McErlean (U.S. 6,883,014).

McErlean discloses:

A system and method comprising:

- a first unit to store a message sent from a message sender; (col.1, lines 23-40;)
- a parser to thematically subdivide the message into a plurality of sections based on a message analysis; ("text analyzer"; 36)
- a router to route a subdivided section of the plurality of sections of the message to an agent appropriate for the subdivided section; (col.1, lines 23-40; 40-"distributor module")
- wherein the agent provides a response to the subdivided section; (col.5, line 58-col.6, line 5)
- wherein the subdivided section of the message is reviewed again to determine if a subsequent response is needed; (col.5, line 58-col.6, line 5; "final response")
- wherein the analysis is to determine if the sub divided sections of the message have been responded to; col.6, lines 6-68)
- augmenting the subdivided section of the message with supporting information; (col.7, line 64-col.8, line 5)
- tracking responses to the message as a whole to determine whether the message is responded to in a predetermined period of time. (col.9, line 28-col.11, line 41)

Response to Arguments

5. Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
